Explore new possibilities to power clearer, faster thinking

Modern day schedules and pressures can lead to stress and tiredness that can be detrimental to our mental wellbeing.

In many western countries, millennials experience the highest levels of work-related stress, resulting in increasing cases of burn-out.

Ubiquinol by Kaneka™ can help consumers fully charge their minds. When formulated as a standalone supplement ingredient or in combination with other brain-supportive nutrients it can help reduce fatigue and enhance cognitive function.

Work-related stress occurs in **72%** of Millennials, **77%** of Gen Xers, and **64%** of Baby Boomers resulting in more cases of burn-out.

Fully charge minds

Unlock the potential of Ubiquinol by Kaneka™, as a standalone supplement or in combination with algae oil, to help consumers revitalize their minds and improve their well-being.

100 mg Ubiquinol by Kaneka™
1 cap/day

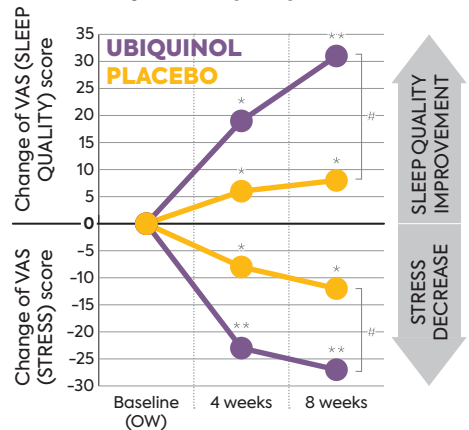

Ubiquinol has been clinically shown to:

- Reduce fatigue
- Decrease daily stress
- Improve sleep quality
- Boost cognitive & autonomic nerve functions

Algae oil, a plant-based EPA/DHA alternative, further supports cognitive health in combination with Ubiquinol by:

- Contributing to the maintenance of normal brain function*
- Contributing to the maintenance of a normal blood pressure*

Quality of Sleep Improvement

Daily Life Stress Decrease

* p < 0.05/from baseline ** p < 0.01/from baseline # p < 0.05/placebo

All natural, plant-based dosage form suitable for a vegan lifestyle. Easy-to-swallow, this low dosage format is preferred by consumers and is gentle on the stomach.

High bioavailability

Unlike coQ10 alternatives, Ubiquinol by Kaneka™ does not require enzymatic conversion to become biologically active.

High performance

Thanks to its unique formulation design, it is easy to absorb and performs equally in multiple supplement and functional food formats.

Unique Quality Seal for consumer packaging

Products marked with the Kaneka Quality Seal give consumers peace of mind, indicating that the supplements have been made with a high quality Ubiquinol ingredient, following a stringent quality assurance program.
